### Turtle Nesting & Hatching / Rosalie Bay

Every year, from March to October, Leatherback, Green and Hawksbill sea turtles nest and hatch at Rosalie Bay and Bout Sable.

Sea turtle nesting are most likely at night,

Seeing a giant sea turtle appear and crawl on the sand to lay eggs!

It's a magical moment you won't want to miss.

Another magical moment is when tiny hatchlings emerge from their nest for their initial journey to sea.

Some nests hatch naturally, while others have a scheduled assisted release to increase their chances of survival.

We drive to Rosalie Bay, take a short walk towards the Atlantic Ocean on a well maintained path surrounded by beautiful flowers.

We meet Simon the turtle keeper and lover who will be elated to give us a little lecture about turtle preservation and caring in Dominica.

Any contribution to him would be most welcome.
